Skill Finder — Student Edition

Official Psychometric Assessment Report • 29-Dimension Construct Model

STUDENT PARTICIPANT PROFILE

STUDENT NAME:	Aarav Sharma	ASSESSMENT:	Skill Finder — Student Standard Edition
AGE / STAGE:	15 yrs • Grade 10	COMPLETED DATE:	Sep 19, 2026
SCHOOL / ACADEMY:	St. Xavier's International Academy	REPORT ID:	abfecb32-c937-4750...

1. Your Psychometric Learning Profile

Non-Prescriptive Synthesis & Exploratory Alignment

Creative Maker & Designer

High Consistency (Psychometrically Validated)

"Transforming imaginative concepts into tangible structures."

You combine visual and structural creativity with practical craftsmanship, enjoying both the aesthetic design and the physical construction of projects.

Exploratory Alignment: Your current profile shows stronger alignment with industrial design, architecture, game environments, and interactive product making.

Primary Cognitive Drivers: Spatial Design | Material Craftsmanship | Visual Realization

Key Educational & Exploratory Guidance Note

This assessment represents a foundational exploratory baseline. The student demonstrates clear natural inquisitiveness and cognitive potential. Optimal learning combines academic theory with practical, self-directed experiential exploration.

2. RIASEC 6-Cluster Interest Distribution

Maps intrinsic occupational curiosity across 6 Holland RIASEC interest domains.

Builder (R) 100%
Hands-on making & engineering

Explorer (I) 100%
Scientific inquiry & analytics

Creator (A) 100%
Visual arts & innovative design

Helper (S) 83%
Community empathy & counseling

Leader (E) 100%
Enterprise initiative & strategy

Organiser (C) 100%
Operations & financial systems

DOMINANT INTEREST PATTERN
Builder (100%) + Explorer (100%)

SUPPORTING INTEREST PATTERN
Creator (100%) + Leader (100%)

3. Top Skill Strengths & Emerging Growth Opportunities

Evaluates instinctive problem-solving and collaboration habits.

& TOP SKILL STRENGTHS

- **Communication & Expressive Articulation**
  Articulates complex reasoning clearly through verbal, written, and graphical expressions.
- **Creative & Divergent Thinking**
  Generates multiple unique pathways and unconventional angles to overcome complex obstacles.
- **Visual-Spatial Thinking**
  Mentally visualizing layouts, objects, maps and spatial relationships.

%² EMERGING GROWTH OPPORTUNITIES

- **Self-Management & Focus**
  Structuring focused study blocks and managing multiple project deadlines.
- **Leadership & Initiative**
  Stepping up to coordinate group direction and project milestones.

4. Demonstrated Cognitive Aptitude & Problem Solving

Overall Problem-Solving Accuracy Rate: 92%

Pattern Recognition	95%	Quantitative Reasoning	85%
Deductive Logic	90%	Speed & Processing	85%
Spatial Visualization	100%	Working Memory	80%

5. Assessment Framework (29 Evaluated Dimensions)

Interest Profile	Skill Behaviours	Cognitive Aptitude	Developmental Habits
25% — 6 Dim	30% — 8 Dim	25% — 8 Dim	20% — 7 Dim

6. What This Profile Suggests

01. Current Alignment:

Your current profile indicates strong natural resonance with Creative Maker & Designer patterns, especially across hands-on creation and analytical inquiry.

02. Strongest Vectors:

Your highest performing dimensions show standout capability in Spatial Design, Material Craftsmanship, Visual Realization, providing a solid foundation for multidisciplinary problem solving.

03. Actionable Next Steps:

- Engage in open-ended robotics or architecture design challenges where multiple physical solutions exist.
- Practice breaking down large weekly project milestones with time-boxed sprints.
- Collaborate in cross-functional design and technology competitions.

** This report provides exploratory guidance for student development, not deterministic career predictions. Use as a starting point for inquiry.*
